1. NASTAR Points are a great way to score a series of races because each competitor's age and gender are factored into their score. The NASTAR handicap chart shows the number of NASTAR points scored based on the medal won. [Click here to view the NASTAR Handicap Chart](#). The number of NASTAR points indicated on the chart is a range. Since NASTAR points are interpolated, the exact number of NASTAR points earned will be within this range. The exact number of NASTAR points scored is indicated on the results page for that race.

2. 100 Point Scale. Competitors score points based on the place they finish in the race.
